# CROSS RIVERS STATE BASELINE EXERCISE BASIC EDUCATION WORKERS

## 1. Introduction

This report presents the findings of the baseline exercise mapping the number and duty stations of **basic education (BED) workers** in Cross River State. The study aims to develop a multi-year, cost-worker recruitment and deployment plan to address identified staffing gaps. This initiative is essential for strengthening the education workforce and improving education service delivery.

## 2. Objectives

The primary objectives of this baseline exercise are to:

- Conduct a comprehensive enumeration of **basic education workers** in Cross River State.
- Identify and map education worker duty stations across the 18 Local Government Areas (LGAs).
- Assess education workers' distribution, qualifications, and specialization to determine staffing gaps.
- Develop a multi-year, costed education-worker recruitment and deployment plan to address deficiencies.
- Provide policy recommendations for sustainable workforce planning and improved education outcomes.

## 3. Methodology

A mixed-methods approach was used to ensure a comprehensive analysis:

- **Data Collection:** Enumeration of education workers, facility visits, and stakeholder consultations.
- **GIS Mapping:** Visualization of education worker distribution by LGA to pinpoint disparities.

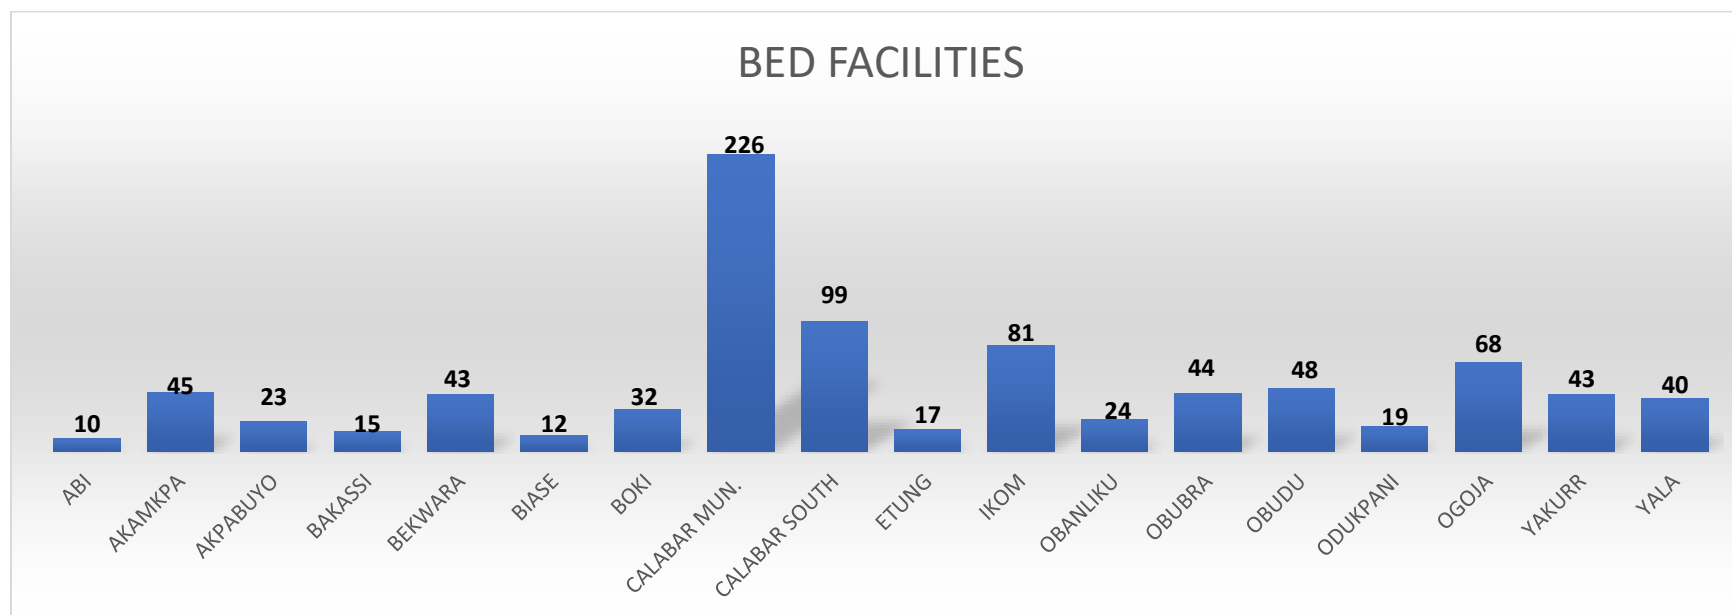

- **Gap Analysis:** Student-education worker ratios, area-specific shortages, and deployment imbalances are assessed.
- **Financial Analysis:** Estimating recruitment, training, and deployment budgetary requirements.

#### **4. Situation Analysis**

##### **4.1 Basic Education Facilities across the State**

This baseline survey provides a detailed overview of the distribution of basic education facilities across the Local Government Areas in Cross River State. The distribution of primary education facilities across the state shows marked variability among the LGAs as shown in Figure 2 below. Calabar Municipality stands out with the highest number of primary schools, totaling 226. This is followed by Calabar South and Ikom with 99 and 81 primary schools respectively. These LGAs represent areas with significant infrastructure dedicated to primary education, likely reflecting a higher population density or a strategic focus on education access.

**Fig.1: Basic Education Facilities in 18 LGAs**

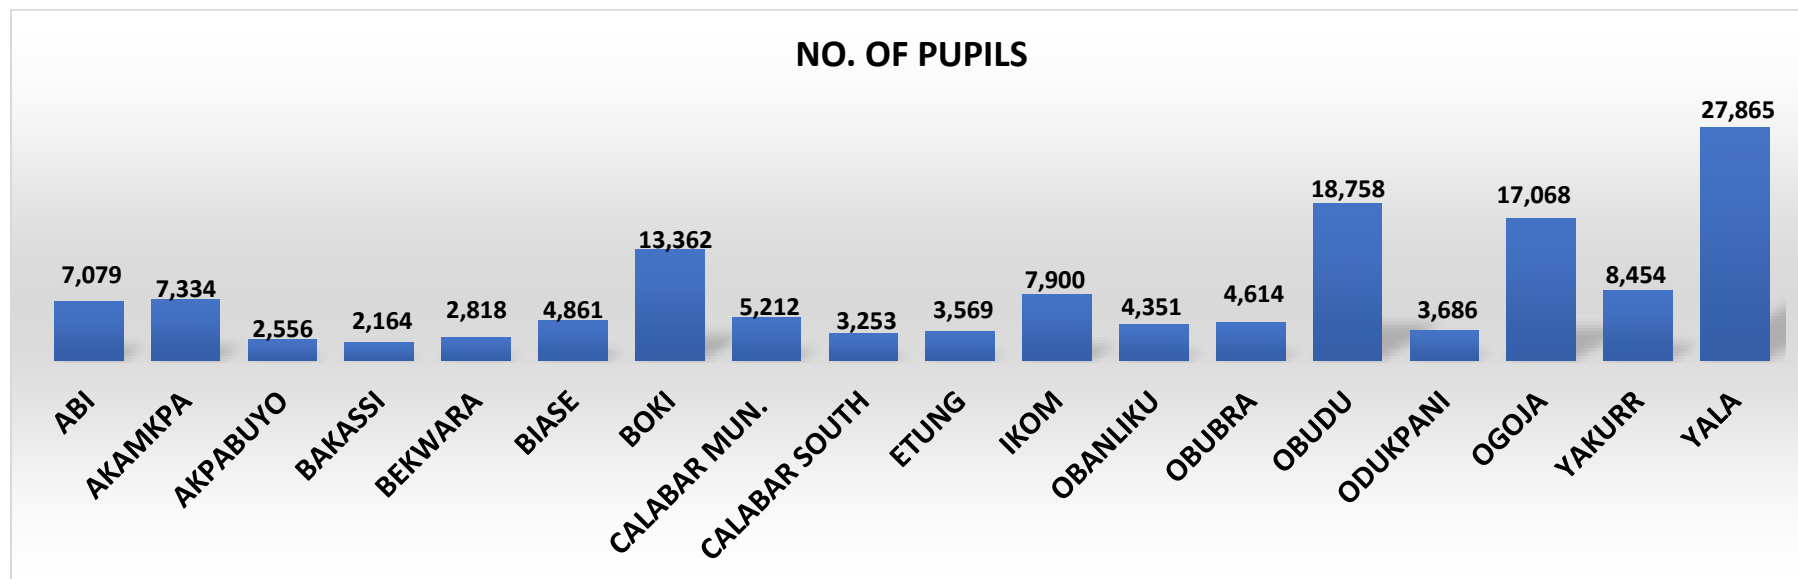

#### **4.2 Students Enrollment in Basic Education across the 18 LGAs**

As shown in Fig.1 below, Cross River State boasts a total enrollment of 137,825 students in its pre-primary, primary, and junior secondary schools across 18 LGAs. Among these, the highest combined student enrollment is found in Yala LGA with 27,865 students, followed by Obudu and Ogoja with 18,758 and 17,068.

On the other hand, Bakassi LGA has the lowest enrollment at 2,164, with Akpabuyo and Bekwarra close behind with 2,556 and 2,818 students, respectively.

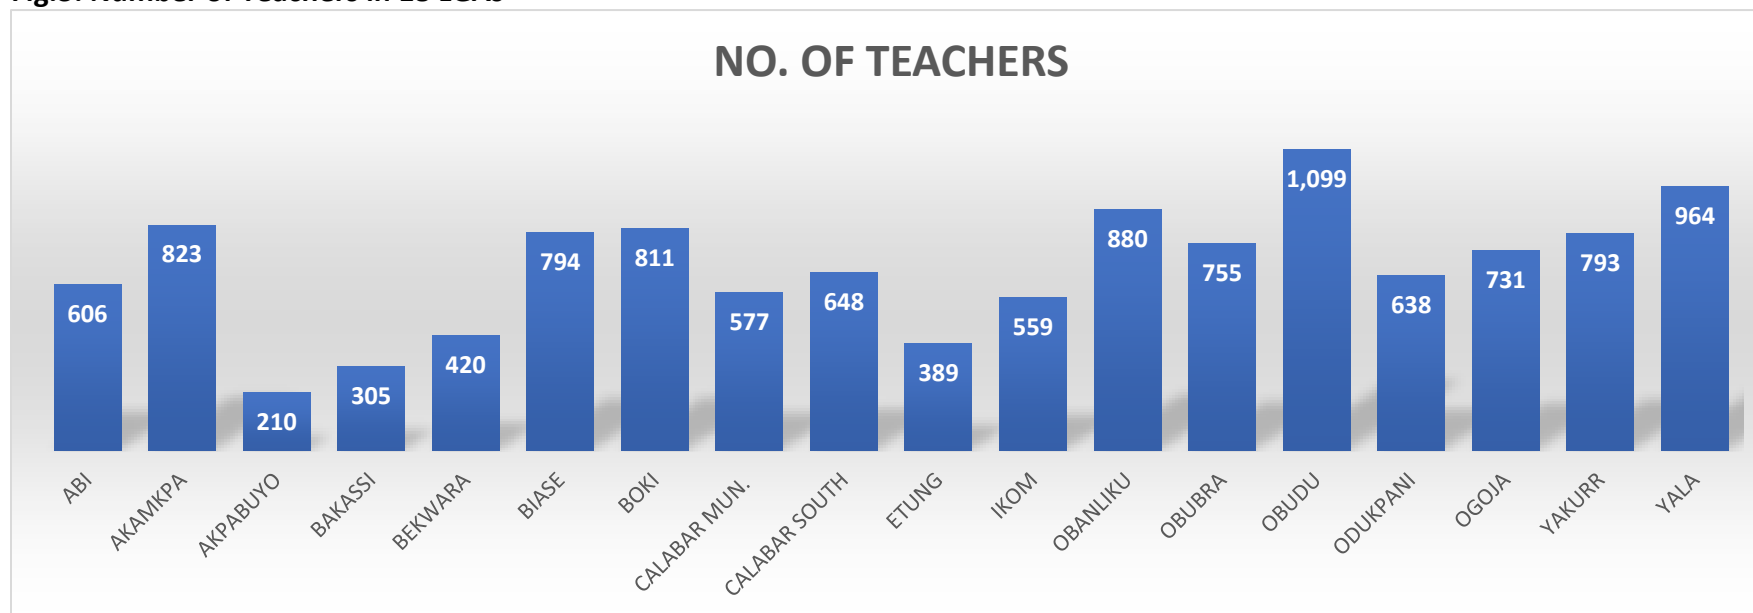

**Fig.2: No. of Student Enrollment in 18 LGAs**

### **4.3 Education Worker Distribution**

A total of **12,002** education workers were identified across basic education facilities in 18 Local Government Areas of the state. Urban areas have a higher concentration of education workers, while rural and underserved communities experience critical shortages. There is a notable gender and professional imbalance, with shortages in key education specializations such as math’s and English. These figures suggest a concentration of educational resources in more populated and urban areas, potentially leading to disparities in educational quality across different regions. The spread of the workforce by LGA is shown in Figure 2 below.

**Fig.3: Number of Teachers in 18 LGAs**

#### **4.4 Baseline Mapping indicating Pupil to Teacher Ratio**

The average Gross Pupil-Teacher ratio in Cross River State is 1:11 for basic education. Therefore, Cross River State has not exceeded the benchmark in both its primary and junior secondary schools signifying no class overcrowding as defined by the National Center for Education Statistics (NCES). See Table.1 below for a detailed breakdown of the current Teacher-pupil ratio per LGA.

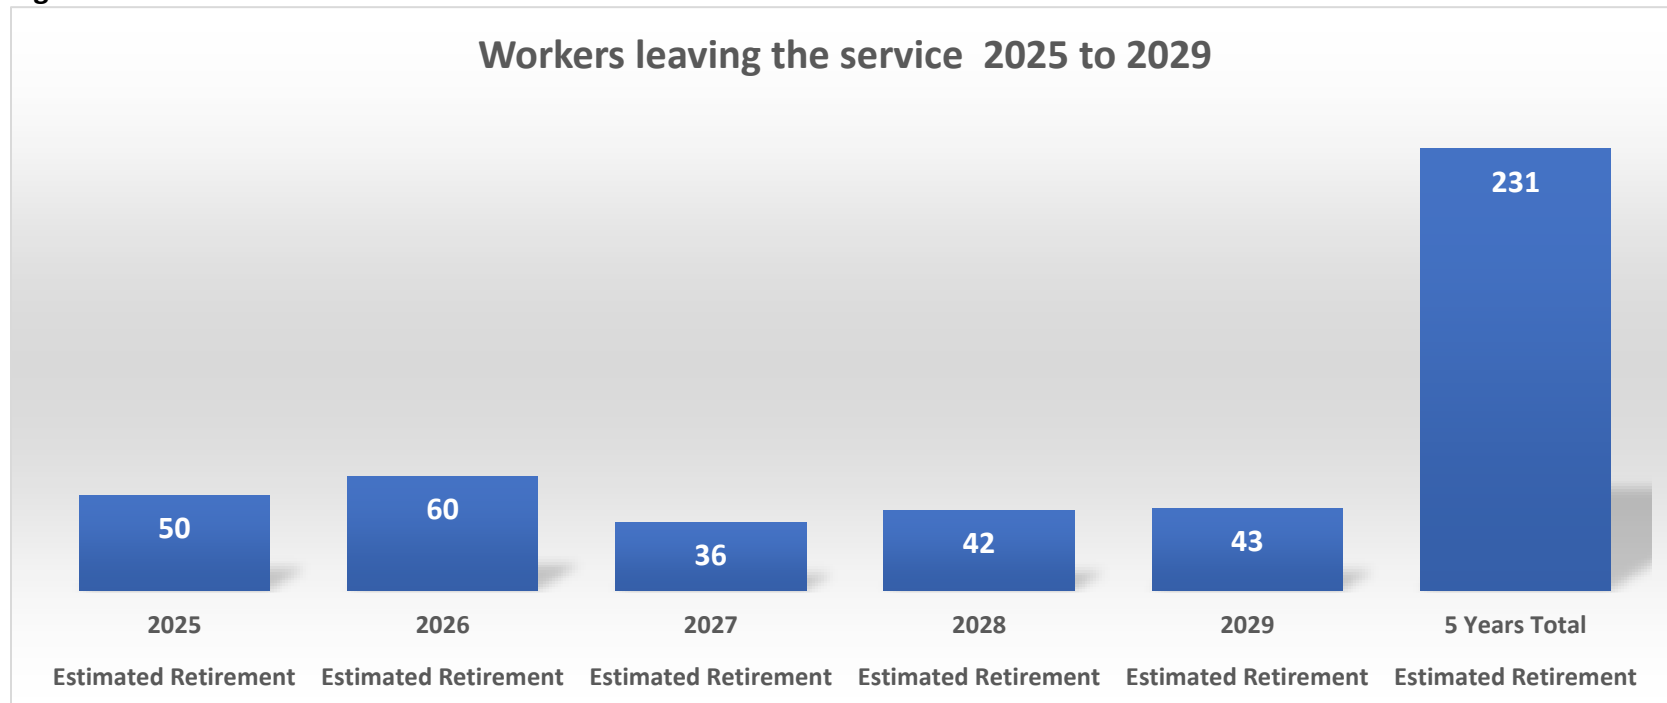

**Table.1: Pupil to Teacher Ratio**

S/N	LGA	NO. OF PUPILS	NO. OF TEACHERS	PUPIL TO TEACHER RATIO
1	ABI	7,079	606	01:12
2	AKAMKPA	7,334	823	01:09

17	YAKURR	8,454	793	01:11
18	YALA	27,865	964	01:29
	<b>TOTAL</b>	<b>144,904</b>	<b>12,002</b>	<b>01:13</b>

### 4.5 Analysis of Workers Leaving the Service Between 2025 and 2029

As teachers in basic education reach their retirement age, those affected will leave the service in varying numbers between the years 2025 and 2029. The retirements of these experienced teachers will create a vacuum and underscore the need for regular recruitment of younger teachers who can be trained and mentored by more experienced hands before their exit from service. Fig.4 gives an outlook of total number of teachers leaving the service by 2029.

**Fig.4: Retirement of Teachers 2025 to 2029**

#### 4.6 Student Enrollment/Population Projection

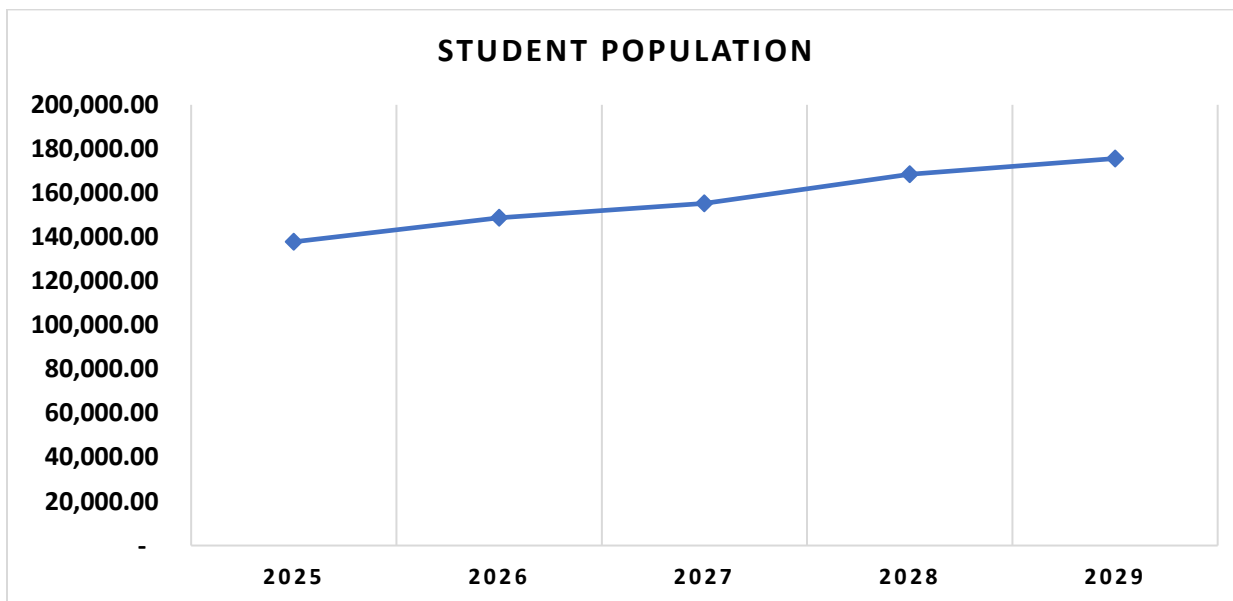

Thus, as the state's population grows, student enrollment for basic education is equally

expected to grow as students are also graduating from BED schools annually. Therefore, government, planners, policymakers, and other actors in basic education are to ensure that they are constantly planning and budgeting to accommodate increased student enrollment, especially in basic education.

**Table.2 Basic Education Student Enrollment in 18 LGAs**

LGA	A BI	AKAM KPA	AKPAB UYO	BAKA SSI	BEKW ARA	BIA SE	BO KI	CALAB AR MUN.	CALAB AR SOUTH	ETU NG	IKO M	OBANL IKU	OBUB RA	OBU DU	ODUKP ANI	OGO JA	YAKU RR	YA LA

**Fig.5: Projection of Student Population 2025 to 2029**

#### **4.7 Teachers Gap Analysis and Findings**

Across the basic education schools, the teacher gaps vary significantly by LGAs. The various LGAs in Cros River State exhibit varying degrees of teacher shortages. Table 3 below provides a detailed analysis of the current deficit in each LGA, estimated gaps from 2025 to 2029, and the total teachers' gap as teachers retire, and new students enroll.

**Table 3: Summary of Basic Education Teachers Gap by LGA**

## 5. Recruitment/ Deployment plan and Costing

### 5.1 Multi-Year Education Worker Recruitment and Deployment Plan:

A structured approach is required to bridge the staffing gap. The following is our States phased plan to bridge the staffing gaps:

#### 2026-2029 MULTI YEAR COSTED BED WORKER RECRUITMENT PLAN

Year	Recruitment Plan	Training Plan	Budget (Naira)
2026	Recruitment and Deployment of 2,000 basic education workers	Provide foundational training for newly recruited education workers.	1,500,000,000
2027	Recruitment and Deployment of additional 2,000 basic education workers for underserved areas.	Develop structured induction training and specialization programs.	1,800,000,000
2028	Recruitment and Deployment of 2,000 more basic education workers to address staffing gaps.	Implement continuous professional development courses.	2,000,000,000
2029	Evaluate recruitment impact and address emerging needs.	Enhance refresher training and mentorship initiatives.	1,500,000,000

## **6.Strategy for Sourcing new BED workers in Cross River State**

**6.1 Collaboration with Educational Institutions:** The State forges partnerships with universities, colleges, and teaching organizations.

**6.2 Engage with Professional Networks:** Joining professional education networks and associations, can be valuable for sourcing candidates and staying updated on industry trends.

**6.3 Community Involvement:** Engage with the local community through volunteer programs, workshops, and school events. Building a positive reputation in the community can attract candidates who value community engagement and social responsibility.

### ***6.4 Improve the Candidates Experience***

Steps are taken to improve the candidate experience by reducing the time to hire, keeping candidates fully informed throughout the process, and using skills-based assessments to screen out unqualified applicants.

### ***6.5 Offer Creative Perks, Benefits, and Competitive Salaries***

When educational professionals have multiple opportunities to consider, we stand out as an attractive option with competitive salaries, creative perks, and an attractive suite of benefits.

### ***6.6 Leverage social media***

The Cross River State Government is building a strong social media presence for the Ministry of Education through which helpful information is provided and linked to various social media blogs.

## **7. Policy Recommendations**

To ensure the sustainability of the workforce plan, the following policy measures should be considered:

1. Introduce rural posting allowances and career progression incentives for education workers in underserved areas.
2. Strengthen pre-service and in-service training programs for continuous professional development.
3. Establish a digital education workforce database for real-time monitoring and planning.
4. Leverage support from development partners to enhance recruitment efforts

## **8. Conclusion**

The findings of this baseline exercise highlight the urgent need for strategic education worker recruitment and deployment in CROSS RIVER State. By implementing the proposed multi-year plan and bridging critical workforce gaps, the state can enhance basic education service delivery. Strong government commitment and stakeholder collaboration will be essential to achieving these objectives.
