## Cross River State Vision Statement

Cross River State Aspires to be the Leading Nigerian State with Prosperous, Healthy and well Educated Citizens; Living in Harmony with People and Nature and Pursuing Legitimate Interests in Freedom Moderated by Good Governance.

## Cross River State Bureau of Statistics Vision Statement

To be a proactive, coordinated and well managed resource system, capable of meeting the statistical data/information needs of the Government and society towards a sustainable development of the State and poverty reduction of the inhabitants.

## Cross River State Bureau of Statistics Mission Statement

To promote the use of statistical data and information at Individual, Local and State level.

**Our focus:**

To promote statistics as a tool for evidence-based policy formulation and development planning.

## Cross River State Bureau of Statistics Mandate

To develop, manage and coordinate the Cross River State Statistical System.

## FORWARD

The 2022 Cross River State Statistical Year Book (SYB) is the seventeenth in the series of the State's Statistical Compendium produced by the Cross River State Government. This publication like previous ones is a guide to all data users to support decision-making in all spheres of human endeavours. This edition comprises thirty one sections and focuses on the State economy with value addition in its contents and coverage.

I wish to appreciate all the Ministries, Departments and Agencies (MDAs) for their effective role and supply of data to the State Bureau of Statistics for data production. The technical process was highly commendable. Thanks to the United Nations Population Fund (UNFPA) for both financial and technical supports that made this publication a reality.

The 2022 edition of the Year Book is a convenient reference source for tracking both Government and Non-Governmental programme/project implementation and achievements. The publication depicts the situation in Education, Health, Agriculture, Crime, Environment, Climate Change, Housing, Prices of Commodities, State and Local Government Finances, Water and Sanitation, Emergency, Food Safety, Physical Infrastructure, Poverty Alleviation, Tourism Development and Population Characteristics for the period, 2020 to 2022.

Besides, the Statistical Year Book provides the baselines and trends in sectoral statistics that is needed for tracking changes in the State economy. I urge you to use the data therein in the publication in decision making and development planning in your organization. The State Bureau of Statistics (SBS) will continue to provide up- to- date and quality statistics to meet the increasing demands of users and researchers within and outside the State. I request users to explore the opportunities available in this publication.

Pastor Dr. Bong Duke
Vice Chairman/CEO
State Planning Commission

## ACKNOWLEDGEMENT

The 2022 Statistical Year Book (SYB) is the seventeenth annual edition produced by the Cross River State Government and the 7th and 1st in the number published since the establishment of the State Bureau of Statistics by Law No. 14 of 2011 and Law No. 2 (2021) as amended respectively. The Statistical Year Book is a yearly publication produced by each State of the federation.

It is the official summary statistics showing the economic trends sectorally, across States, therefore making comparison between and among States possible. The Year Book makes it possible for organizations, such as, Revenue Mobilization and Fiscal Commission, Federal Ministry Finance, Ministry of Budget and National Planning, to easily compute relevant indices about the State. Therefore, it is mandatory for every State to produce and disseminate the year book across the 36 States and FCT. The Year Book also shows the statistical level of every State.

The 2022 Year Book is presented in a manner that users of data can transform the available raw data into any consumable state, for proper situational analysis (Sitan), trends and forecasting, budgeting, tracking, development planning and monitoring and evaluation of Government programme/projects and policy formulation. It also disseminates statistical data for evidence, policy debates and sustainable development as well as poverty reduction.

This edition comprises 31 sections and maintains the traditional outlook as the previous ones. The Year Book is structured as follows: Weather, Population, Manpower, Agriculture, Education, Price, Transport, Health, Public Finance, Electrification, Food Safety, Women and Safety Nets, Water and Sanitation, Communication, Crime, Emergencies/Disasters, Tourism, Youths and Empowerment, Family Planning and Reproductive Health, Estate, HIV/AIDS, Rural and Urban Renewal, Religious, Infrastructure, Lands, Housing and Environment, Development Partner, Civil Society, Job Creation/Placement etc.

The Systems of Administrative Statistics (SAS) is the prescribed method used by all the States and FCT as recommended by the National Bureau of Statistics (NBS), the contents and quality of the publication is well benchmarked against international best practices and ISIC standard classification.

The Bureau has the mandate to develop, manage and coordinate the State Statistical System; and produce quality data that will inform good governance. The Bureau has the potential to support the current open data market that will support e-Governance and create employment. Other publications in the Bureau include Crime Watch, Abstract of Statistics, Food Safety Statistics, Facts and Figures and others.

Let me commend His Excellency, Sen. Prince Bassey Otu, the Executive Governor of Cross River State for his continuous support to the Bureau for data production and people first agenda. Let me specially appreciate UNFPA for both financial and technical supports for this edition and the previous one. I remain grateful to the Ministries, Departments and Agencies (MDAs) in the State, all Federal Establishments and other Stakeholders in the Statistical System for their roles in the present and previous publications. We welcome constructive criticisms, which will be acknowledged and reflected as corrections in the next edition.

# SECTION 1
# WEATHER STATISTICS

This section focuses on the Weather and Climate statistics from 2020-2022 in Calabar, Ikom, Ogoja and Obudu as reported by the Nigerian Meteorological Agency (NIMET). Weather and Climate statistics of Calabar Marine have also been reported in this edition. The Calabar Marine represents the coastline areas of Calabar from the Henshaw Town Beach through the Nigerian Navy Ship (NNS) Victory Base, to the Obutong/Diamond Hill Creek.

The section contains 14 tables (Tables 1.1-1.14) and a graph. The tables and the graph show the Weather and Climate conditions in the four Meteorological Zones of the State from 2020-2022.

Tables 1.1-1.5 show the Weather and Climate statistics in Calabar and Calabar Marine by month from 2020-2022. The highest amount of rainfall in the period under review in Calabar was 597.4mm in September 2020 while that of Calabar Marine was 386.5mm in August 2021. Total number of rainy days in Calabar was 175 days in 2020, 170 days in 2021 and 168 days in 2022, averaging 171 days.

Tables 1.6-1.14 show the Weather and Climate distributions in Ikom, Ogoja and Obudu. In Ikom, the highest amount of rainfall was 498.7mm in July 2020 while the highest number of rainy days, 152 days was in 2022.

Ogoja has the highest average Sunshine of 8.2 hrs in the month of January 2022, while Ikom has the highest average Relative Humidity of 89% in the month of Setptember of the same year. Obudu has the least number of rainy days of 89 days in 2020 in the four Meteorological Zones of the State.

# SECTION 2

# POPULATION AND VITAL STATISTICS

This section provides population and vital statistics for the period 2020-2022. Gathering statistics about the number of people living in a place at a particular period makes it possible to compare socio-cultural, economic, social and demographic changes.

Vital statistics deals with the statistical output of a civil registration system such as Birth Registration, Death Registration, Marriage Registration, etc. The information contained in the individual civil registration records is compiled to generate vital statistics for the population.

The projected population figures are based on the 2006 National Population and Housing Census conducted by the National Population Commission (NPoPC). There are 14 tables in this section. Tables 2.1-2.3 show the projected population of Cross River State based on the 2006 population census by Local Government Area and Geographical spread from 2020-2022.

Table 2.4 juxtaposes the 2006 census figures against the projected population for 2020-2022 by LGA. Table 2.5 is the projected population of Cross River State by gender and LGA, 2020-2022. Table 2.6 gives the projected population of Cross River State by five-year age groups and sex for 2020-2022. Tables 2.7 and 2.8 are the projected populations of Female and Male persons respectively in Cross River State by LGA for 2020-2022. Tables 2.9 to 2.11 show Birth Registration in Cross River State by sex and LGA while Tables 2.12-22.14 show Death Registration in Cross River State by sex and month for 2020-2022.

Akamkpa LGA a has the largest land area of 4,943 Sq. Km followed by Boki 2,742 Sq. Km and Yala is third with 2, 041 Sq.Km. The LGAs with high population densities for 2022 are Calabar Municipality (1,936.6), Calabar South (1,174), Abi (713.1) and Bekwarra (574.4). Cross River State projected population for 2022 stands at 4,788,746 persons.

Birth Registration for the period under review shows that 50,302 babies were born in 2020, 80,141 in 2021 and 123,870 in 2022; this implies that, parents now register their babies at birth. Whereas, Death Registration shows that more persons died in 2021 (5,251) than in 2020 (303) and 2022 (354) combined.

Cross River State Population Pyramid by Age and Sex for 2006 and 2022, illustrate that the age brackets of 5 – 9 and 10 – 14 have the highest population of both males and females.

**Figure 3.2: Staff Strength in CRS Public/Civil Service by LGA of Origin, 2020-2022**

# SECTION 4
# AGRICULTURE STATISTICS

This section contains information on Forest Cover in the State by Types and Local Government Areas, Trees Species planted in the State by Local Government Areas, Non-Timber and Medicinal Plants progagated in the State and Wildlife Species within the periods under review. The State Forestry Commission is yet to ascertain the number of trees species planted, number of non-timber and medicinal plants propagated and the population of wildlife species in Cross River State between 2020 and 2022. The survey report on forest cover in the State is yet to be updated since 2018.

The section also presents the Number of Livestock Slaughtered in Registered Markets in the State by Species and LGAs. It was however reported that the number of Bovine (Cow) slaughtered decreased from 22,385 in 2020 to 17,871 in 2021. Similarly, the data on the number of livestock treatment by type of diseases and LGAs as well as that of livestock and poultry curative treatment in the State are included in the section. Other information therein include Livestock and Poultry Curative Treatment in the State by Species and LGAs. Vaccination of Poultry against Common Infectious Diseases in the State, Revenue Generated in the Vertinary Department of the State, Number of Fishermen, Canoes and Fishing Ports in the State and Number of Fish Farms and Ponds Cultivated in Cross River State by Types, Ownership and LGAs are also found.

On Vaccination of poultry against common infectious deseases, 31,967 birds were vaccinated against New Cattle Disease (1/0) in 2020 as against 12,964 in 2021. Data on Crop Production, Farmers' Groups, Fish Production, Distribution of Produce Graded and other Agro statistics are also presented.

# SECTION 5
# TRANSPORT STATISTICS

This section of the Statistical Year Book examines Transport Statistics for the periods under review, 2020 to 2022. Table 5.1 gathered information on Passenger Movement in Margaret Ekpo International Airport (MEIA) by Type of Flight and Month. Table 5.2 comprises of Aircraft Movement in Margaret Ekpo International Airport by type of flight and months. Table 5.3 and 5.4 clearly show The Number and Gross Registered Tonnage (GRT) of Vessels Entered in Calabar Port by Type of Cargo from 2020 to 2022 are represented. Chart 5.1 represents the comparism of The Number and Gross Registered Tonnage (GRT) of Vessels Entered in Calabar Port by Type of Cargo for the period under review. Table 5.5 and 5.6 show the Cargo Throughput at Calabar Port by foreign and Domestic Traffic for the period under review while Chart 5.2 represent the comparism of Cargo Throughput at the Calabar Port by foreign and domestic Traffic. Table 5.6 and 5.7 show the Analysis of Cargo Throughput at Calabar Port by Type of Cargo for the period under review. Table 5.8, 5.9, 5.10, 5.11 and 5.12 represent the Nationality of Vessels that Entered Calabar Port by Month, under the year under review.

# SECTION 8

# EDUCATION STATISTICS

This section is on education statistics. It contains information on the distribution of schools by type and LGA from 2020-2022. Teachers distribution by qualification, sex, Local Government and salary grade level, distribution of classrooms by type of school and condition as well as the enrolment figures at Early Childhood Care Development and Pre-Primary Education, Primary School, Junior Secondary School, Senior Secondary School, Adult and Non-Formal Education Centres and some government owned tertiary institutions in the State.

Tables 8.52 and 8.53 show that no scholarship was awarded by the State between 2020 and 2022.

# SECTION 10
# WATER AND SANITATION STATISTICS

The water sanitation and hygiene (WASH) section shows Water, Sanitation and Hygiene Facilities in Cross River State with respect to their functionality and utilization capacity for the period 2020-2022.

Table 10.2, in 2020 there were 1,415 hand pump boreholes (HPBH) with 638 being functional and 717 motorize boreholes (MBH) and 281 functional while there were 2,093 well pumps (WP) with 980 being functional, all covering 1,206,500 beneficiary population with an actual beneficiary access of 520,620. The number of water facilities reduced in 2021 to 1,195 for (HPBH), 478 being functional, 656 (MBH) and 837 being functional as shown in table 10.3 with an estimated population of4,496,591 for CRS in 2021, the beneficiary coverage and access of 1,116,250 and 390,897 respectively was grossly inadequate.

The sanitation facility across the State shows a marked concentration of improved sanitary facilities in the rural and semi-urban areas provided by RUWATSSA. The facilities include: toilets flushed to septic tanks and pit toilets with slaps and water sources as seen in Bekwarra, Ikom, Obudu and Akamkpa LGAs which have the largest spread of sanitary facilities of 164, 217, 162 and 129 respectively from the total of 2,700 as shown in table 10.5

## SECTION 11
## COMMUNICATION STATISTICS

This section provides data on communication statistics in Cross River State. However, for the purpose of clarity and comparism with 2017 – 2021 review, it is worthy of note that the State Postal Service Managerial Units of the South, Central and Northenern part of the State have been merged into one with the headquarters at the Federal Secretariat, Calabar.

Table 11.1 shows mails/parcels dispatched in Cross River State by Local Government Area, 2020-2022. In 2020, 5,396 international and 11,659 domestic mails were dispatched. In 2021, 1,741 international and 9,457 domestic mails were dispatched and in 2022, the number of both international and domestic mails dropped drastically to 56 and 2,329 respectively.

Table 11.2 presents the number of Post Offices and Postal Agencies by Local Government Areas in Cross River State, 2020-2022. The number of Postal Agencies and Post Offices stood at 9 and 16 per yeat while the Head Post Offices are three respectively.

Table 11.3 covers the number of Post Offices Boxes and Private Mail Bags Available, Rented and not rented by Local Government Area in the State, 2020-2022. Calabar South recorded the highest number of Post Office Boxes available and rented (4,098 and 3,202) respectively.

Tabel 11.4 represents the number of Express Mails/Parcels dispatched in Cross River State by Local Government Area, 2020-2022. In 2020, 99 international and 2,435 domestic mails while the number dispatched in 2021 increased to 115 and 2,453 for international and domestic mails. The year 2022 witnessed a steep drop of both international and domestic mails of 60 and 27 respectively.

# SECTION 12
# CRIME STATISTICS

This section comprises statistics from the Police, Judiciary, Correctional Service and Federal Road Safety Corps (FRSC) consisting of crimes committed and reported to the police with corresponding prosecutions by the Judiciary and correction by the correctional service all linked to one another. In table 12.1 theft and other forms of stealing, offences against persons and assault are on the increase when compared to other offences reported to the police while unnatural offences and suicide are on the least offences. in 2020, Assault, other offences against person and theft and other forms of stealing recorded 187, 294 and 343 respectively and increased to 251, 383 and 503 in 2021 and reduced to 133, 259 and 419 respectively in 2022 representing 26%, 32% and 23% of the total crime reported to the police.

Within the same period, as shown in table 12.15, a total of (1485, 69220, 102919) cases were handled by the Customary, Magistrate and High Courts in Cross River State respectively with a conviction of 2,943 with others either dismissed or pending. Correspondingly, 2,734 inmates were in the custody of the correctional service from 2020-2022 made up of 2693 males and 41 females with 93% of the inmate within the age bracket of (18-60) years.

## SECTION 13
## EMERGENCIES/DISASTERS STATISTICS

Disaster is an occurrence disrupting the normal conditions of existence, causing a level of suffering that exceeds the capacity of adjustment of the affected community, and a state in which normal procedures are suspended and extra-ordinary measures are taken in order to avert a disaster is an Emergency.

While Emergency is a sudden, urgent, unexpected event that requires immediate action, Disaster is a calamitous event, especially one occurring suddenly and causing great loss of life, damage, or hardship.

This section has information on Windstorm, Flooding, Fire outbreak, Landslide/Erosion and Communal crises. Table 13.1 to table 13.3 show the disaster profiles in Cross River State from 2020 to 2022. In 2020, 2021 and 2022 157,415, 176,201 and 189,539 respectively were affected. Year 2020 recorded 138 windstorms, 345 flooding, 42-fire outbreak, 54 communal crises and 47 landslides/erosion as recorded in table 13.1.

In 2021, Windstorm, Flooding, Fire outbreak, Communal clashes and land slide/Erosion rose tremendously to 162, 374, 73, 95 and 71 respectively within the year with higher number of persons affected in each case as seen in table 13.2. It is therefore important that people plant more trees around their compound and environs to avert the effect of windstorms. The Government and community leaders should make more effort in settling dispute to reduce communal clashes to the barest minimal.

# SECTION 15

# HOTELS DIRECTORY

This section is on the distribution of Hotels and Guest Houses in the State by Senatorial Districts and Local Government Areas, 2022.

In the Southern Senatorial District, Calabar Municipality accounted for the highest number with 60 hotels followed by Calabar South with 20 hotels. The least number of hotels came from Akpabuyo LGA with only two hotels. However, no record shows that Odukpani Local Government Area has any hotel within the period under consideration.

Similarly, in the Central Senatorial District, Ikom Local Government has the highest number with 27 hotels followed by Yakurr with 16 hotels within the period. Etung has the least with only two hotels.

In the Northern Senatorial District, Obudu and Ogoja LGAs has the highest number with 17 hotels each while Yala followed with 10 hotels. The least number of hotels came from Bekwarra LGA with only two hotels. See the tables (Table 15.1-15.3) for more details.

# SECTION 17
# CROSS RIVER STATE ELECTRIFICATION STATISTICS

This section provides information on the Cross River State Government efforts towards Rural Electrification from 2020-2022.

Table 17.1-17.3 give information on the State Rural Electrification projects by Local Government Area for 2020-2022. In 2020, two (2) projects were completed, energised and commissioned. The number of projects completed and not commissioned were six (6) while twelve (12) projects were on going. In 2021, completed and not energised projects were eighteen (18) while eight (8) were on going. In 2022, completed and energised projects were twenty-three (23) whereas six (6) were on going.

Table 17.4-17.6 provide information on the percentage completion of electricity projects in the State by Local Government Area. In 2020, there were 13 projects at 80-100% completion while in 2021 there were 6projects at 80-100% completion. However, there were no activity 2022 and data are not available from the State Electrification Agency.

Table 17.7-17.9 is on the maintenance of broken down networks and construction of new relief substations undertaken by SEA in the period under review.

Table 17.10-17.12 show the level of electrification projects (on going and completed) executed by SEA in the 18 Local Government Areas for 2020-2022.

# SECTION 18
# FOOD SAFETY STATISTICS

Food is a key factor to human development and physical well-being. This section gives a food value chain by community and Local Government Area of Cross River State under APPEALS project; a replacement of the Commercial Agricultural Programme funded by the World Bank.

Table 18.1 shows the area of land (Ha) cultivated or used in each Local Government Area for Cocoa, Rice and Poultry Production, 2020-2022 in the APPEALS Project. On hectares of land in 2020, Obudu took the lead with a total of 13,395 hectares of land of which 445.01 was for Cocoa and 12,950 for Poultry. Akpabuyo came second with 13,300 hectares of land for only Poultry. In 2021, Odukpani had 72,400 hectares used for Poultry and Ikom 27,000 for Poultry. Akpabuyo followed this with an increase from 13,300 in 2020 to 17,270 in 2021. In 2022, Odukpani maintained the lead of 72,400 hectares followed by Obubra with 32,000 hectares while Ikom maintained 27,000 hectares for Poultry.

Table 18.2 is about cooperative group members that benefited from APPEALS projects according to their sex. In 2020, Obanliku had 262 males and 157 females with a total of 419 cooperative group members. Akpabuyo came second with 127 males and 108 females making 235 members. Obudu came third accounting for 101 males and 130 females out of the 231 members. In 2022, Odukpani came first with 774 males and 884 females while Obanliku followed with 881 members comprising 530 males and 351 females.

Table 18.3 shows the number of communities in each Local Government Area that benefited from APPEALS project while table 18.4 speaks to the number of farmers in each Local Government that benefited from the APPEALS project within the reference period. See the section for other details.

# SECTION 19
# WOMEN EMPOWERMENT, GENDER AND SAFETY NETS STATISTICS

This section shows cases of gender-based violence (GBV) and their referrals handled by different organizatioins in the State. The section also contains information on the number of people that benefited from the Conditional Cash Transfer (CCT) in the State, number of women and children focused NGOs trained by Local Government Area, child protection cases and women empowerment initiatives.

Table 19.1 - 19.3 show Gender Based Violence (GBV) Cases in Cross River State by Type and Month, 2020-2022. The cases were characterized as rape, sexual assault, physical assault, denial of resources, physical abuse, psychological and emotional abuse, etc. Out of the 106 GBV cases recorded in 2020, rape accounted for 4, sexual assault 2, physical assault 42, denial of resource 14 and psychological/emotional abuse 44. 35 cases were settled within the same period. The number of GBV cases recorded increased to 157 in 2021, which further increased to 189 cases in 2022.

Table 19.4 – 19.6 highlight GVB cases referred and handled by different organizations in the State while the number of people that benefited from the Conditional Cash Transfer is captured in table 19.7. See other tables for more details.

## SECTION 20
## FAMILY PLANNING AND REPRODUCTIVE HEALTH STATISTICS

Good sexual and reproductive health is a state of complete physical, mental and social well-being in all matters relating to the reproductive system. It implies that people are able to have a satisfying and safe sex life, the capability to reproduce, and the freedom to decide if, when, and how often to do so. To maintain one's sexual and reproductive health, people need access to accurate information and the safe, effective, affordable and acceptable contraception method of their choice. They must be informed and empowered to protect themselves from sexually transmitted infections. Moreover, when they decide to have children, women must have access to services that can help them have a fit pregnancy, safe delivery and healthy baby. Every individual has the right to make their own choices about their sexual and reproductive health. UNFPA, together with a wide range of partners, works toward the goal of universal access to sexual and reproductive health and rights, including family planning.

Within the period under review, five hundred and eleven thousand, five hundred and thirty-seven (511,537) women accepted various forms of family planning methods in Cross River State from 2020 to 2022 as shown in table 20.1 with Yakurr Local Government Area having 31,881 women as the highest Local Government whose women accepted family planning methods. Bakassi has 7,980 women as the least Local Government Area whose women accepted family planning methods within the period under review.

In 2020, 32,858 children were born out of which 610 was stillbirth and 15 mothers died during childbirth. A reduction in both infant and maternal mortality rates as compelled to 2021 that has 26,947 birth, 387 stillbirth and 69 mothers died during delivery as shown in table 20.8.

# SECTION 22
# FIRE STATISTICS

This section covers fire statistics which mainly shows causes of fire outbreaks, rescue operations, fire fighting equipment and personnel including arrival time to distress calls from the tables shown below,

There were 37 fire outbreaks between 2020 - 2022 with majority caused by electrical fault, followed by carelessness in handling inflammable components like kerosene stove, gas cooker and fuel as shown in table 22.10. Within the same period, there were 9 fire-fighting stations with 4 fire-fighting trucks in 2020 - 2021, which increased to 5 trucks in 2022 and 12 fire safety units. Also, a total of ₦19.67 Billion worth of property was lost to fire in 2020, ₦12.365 Billion in 2021 and ₦21.315 Billion in 2022 with 19 persons injured and 11 persons died, as shown in tables 22.1, 22.2 and 22.3 respectively.

Besides, 356 Fire Officers made up of 243 males and 113 Females, 349, 239 males and 110 females, and 334, 226 males and 108 females respectively occupied the various Fire Fighting Offices for 2020, 2021 and 2022 respectively in Cross River State.

Fire rescue operations is a function of equipment and arrival time, more lost were incurred because of inadequate fire fighting equipment and late arrival to fire scene because most out breaks occur at night. It is also clearly shown from tables 22.1 – 22.3 that the urban and semi- urban settlements recorded more fire outbreaks as seen in Calabar, Ikom, Ogoja, Obudu and Ugep due to concentration of population and economic activities.

# SECTION 26
# INFRASTRUCTURE STATISTICS

The section focuses on the distribution of roads and other infrastructure in the State. The absence of update on road construction and rural development projects for some number of years is possibly attributed to on going projects.

**TABLE 26.1**

## SECTION 28

## DEVELOPMENT PARTNERS' STATISTICS

This section reveals some projects/programmes funded by Development Partners in the State from 2020 to 2022. The available data show that the World Bank funded nine (9) projects with the sum of ₦46,892,283,325.75 within the period under review. The areas of focus of the World Bank were Environment and Erosion Control, Community Development, Agricultural Productivity, Youth Empowerment, State Governance and Capacity Building.

The data also reveal that the Global Fund assisted the State in the Malaria Elimination Programme with the sum of ₦453,624,451.22 in 2021 while some of the supports received from the United Nations Population Fund (UNFPA) stood at ₦48,029,900.00 between 2021 and 2022.

On the Cross River State Rural Access and Agricultural Marketing Project (CR-RAAMP), the European Investment Bank (EIB) supported the State with the sum of ₦65,000,000.00 in 2021 while the United Nations Development Assistance Framework (UNDAF) also known as "Delivering as One" assisted the State with ₦4,350,000,000.00 between 2020 and 2021. See the tables below for other details.

# SECTION 30
# CLIMATIC CHANGE STATISTICS

In recent times, the global effort to tackle climate change focuses on both mitigation (such as reducing emission of Carbon (iv) Oxide and other greenhouse gases) and adaption to reduce vulnerability of human population to climate change.

This section deals with Climate Change Statistics. The section contains data on institutions dealing with climate change, distribution of meteorological stations and quarries, areas of greenhouse gases emission, mineral deposits and mining locations. The section also includes information on the land area destroyed by fire, erosion degraded areas, water bodies and land forms.

Table 30.4 is on the Distribution of Quarries in the State by Local Government Areas, 2020-2022. The table reveals that the State has 41 quarries with Akamkpa LGA having the highest number of 33 quarries within the period under review. Boki and Obudu came second with 2 quarries each while Biase, Ikom, Obanliku and Yala has 1 quarry each within the same period.

Tables 30.11 and 30.12 show erosion degraded areas in the State. The number of sites devastated by erosion increased from 175 in 2020 to 297 in 2022. See other tables for more details.

**TABLE 30.1**
**INSTITUTIONS DEALING WITH CLIMATE CHANGE IN CROSS RIVER STATE, 2020**

| S/NO. | NAME OF INSTITUTION | ACTIVITY | LOCATION | REMARKS |
|---|---|---|---|---|
| 1. | Ministry of Climate Change and Forestry | Green Carnival, Tree Planting, Sensitization for reduction in wood energy | Across the State | Tree Planting Preservation of Natural Forest Reserve |
| 2. | Department of Biodiversity | Wild Live, Food habitat, Prservation of endanged Species | Across the State | Preservation of wild live and Natural Habitat |
| 3. | Ministry of Environment | Awareness creation, Environmental Sanitation, Refuse collection and disposal | Across the State | Heathy Environment, Recovery of Government Green Land Area |
| 4. | Forestry Commission | Defforestation/Afforestation, Enforcement of Forest Regulations | Across the State | Preservation of Natural Forest, Regeneration of Forest. |
| 5. | Department of Afforestation | Tree Planting | Across the State | Tree Planting, Advocacy against De-forestation. |
| 6. | Ministry of Water Resources | Water Resource Management | Across the State | Clean Accessible water, Water Sanitation and Hygiene |
| 7. | Ministry of Agriculture | Train the farmers on the best management practices with little impact on vegetation produce, Agric-services, Verterinary Services, Livestock, etc. | Across the State | Food Availability/Security. |

# SECTION 31
# CROSS RIVER STATE POVERTY STATISTICS

This section contains information of poverty related statistics. Table 31.1 reveals the distribution of skills acquisition centres in Cross River State by LGAs, 2020. Table 31.2 shows distribution of poverty based reduction projects in Cross River State by type and number of projects, 2016 – 2020. Tables 31.3 and 31.4 contain information on community based poverty reduction projects in Cross River State by type of projects, number of projects and local Government Areas. While table 31.6 discloses the distribution of poorest communities in some selected LGAs in CRS. Table 31.7 shows the distribution of persons selected from the single social registry of poor and vulnerable to other projects for interventions.
